

**Suggested Script for beginning the interview for completing the VI-SPDAT**

Hi,

My name is \_\_\_\_\_ and I am with \_\_\_\_\_.

I am going to be asking you some questions in order to determine how we are best able to assist you. It normally takes about 7 minutes to complete. The questions really only need a yes or no answer. I know it might be hard to answer some questions with a yes or no, but please do your best. You are able to skip or refuse to answer any question that I ask, but also understand that if you do, we might be limited in the assistance we can give you.

All of this information is confidential and treated as such. I have a release form for you to sign that will allow me to discuss your information with other people who can help me assist you.

If you do not understand a question, please let me know and I will do my best to explain it you.

Finally, I need you to answer the question honestly. There is no right or wrong answer—and there really is no answer that we are looking for here. We are just trying to get to know you and the best way we are able to help you.

## Opening Script

Every assessor in your community regardless of organization completing the VI-SPDAT should use the same introductory script. In that script you should highlight the following information:

- the name of the assessor and their affiliation (organization that employs them, volunteer as part of a Point in Time Count, etc.)
- the purpose of the VI-SPDAT being completed
- that it usually takes less than 7 minutes to complete
- that only “Yes,” “No,” or one-word answers are being sought
- that any question can be skipped or refused
- where the information is going to be stored
- that if the participant does not understand a question that clarification can be provided
- the importance of relaying accurate information to the assessor and not feeling that there is a correct or preferred answer that they need to provide, nor information they need to conceal

## Basic Information
